

PRESS RELEASE

FOR IMMEDIATE RELEASE: January 1, 2012

SUBJECT: NEW VERSION OF ALL-CALL™ NURSE CALL SOFTWARE NOW AVAILABLE!

WICHITA, KS – Alliance Monitoring Technologies, L.L.C. is pleased to announce the rollout of All-Call™ Version 10. This version is the recommended upgrade for everyone running previous versions of the All-Call™ software. Version 10 continues Alliance's commitment for providing innovative code architecture that will provide continued reliability for life safety applications and on-going opportunities for integration with other systems.

All-Call™ Version 10.0 offers many new features including:

- Browser based application – compatible with MS Internet Explorer, Apple Safari, Mozilla Firefox, and other browsers
- New GUI interface – easier to use
- Runs on Windows 7, Mac, Linux and other operating systems
- Compatible with domain network infrastructure

Additional features allow you to:

- Send notifications to smartphones via text messaging (SMS)
- Send notifications to email addresses
- Reset pendant notifications at resident's pendant
- Back up database to user selected location
- And much more!
