

Closed Circuit Television (CCTV) Systems

Give resident family members peace of mind . . .

Security in a healthcare environment requires a balance of control and accessibility. Patients want to feel safe and visitors want to feel welcome. Staff members want to do their jobs without being inconvenienced by systems that interfere with movement and efficiency. Alliance helps you take care of all your security needs, so you can take care of your patients. Alliance meets the requirements of healthcare facilities, from small centers to multi-campus centers.

Let Alliance help you create a safe environment for your patients, protect your facilities and secure your information systems. From the parking lot to care units, security solutions from Alliance can help you create a welcoming, secure healthcare environment.

- Manage multiple security functions from a central command and control platform
- Link events to actions across multiple security systems
- Use open architectures to work with established IT standards
- Retain backwards compatibility with equipment you already have
- Maximize the reliability of fire and intrusion detection, reducing unwanted alarms
- Lower costs by using existing wiring for fire alarm and nurse call systems
- Use standard TCP/IP communications to integrate security systems with your existing infrastructure
- Assist in compliance with JCAHO, HIPAA and other regulatory standards
- Reduce installation costs and downtime

- **Protect residents & staff**
- **Secure building and grounds**
- **Installation & in-house training**

All-Call[®] CCTV System

Security cameras are a great way to protect an elder care facility or nursing home. The number of retirees living in group or nursing homes has been rising consistently for a number of years. High demand and large numbers of elderly or impaired people living in groups makes security a top priority. A smartly installed CCTV system is an easy and effective way to keep your residents and staff safe from theft, vandalism and unwanted intruders.

The Alliance All-Call[®] CCTV System features include:

- **Robust Equipment** - the system utilizes high resolution security cameras from select vendors, whose brands consistently pass our higher standards for video camera equipment.

- **Operation of Multiple Locations** - the All-Call[®] CCTV System allows a single operator to view multiple access points from a central location, thus decreasing the need for man power making routine inspections every hour.

- **Convenient & Easy to Operate** - the All-Call[®] CCTV System offers effective, reliable detection of movement which is accurately recorded to a digital video recorder for playback after the incident has occurred, for review.

- **Improves Status of Facility** - new resident family members are more likely to entrust their loved ones to your facility's care when they can have the added benefit of peace of mind provided by a 24/7 security system installed.

- **Integrates with All-Call[®] product line** - all of our products easily integrate with one another to provide your facility with a comprehensive system that will protect and secure your facility staff and residents.

- **Reliable Customer Service and Support** - our partnership with our customers goes way beyond systems installation. Professional service and technical assistance are available via 24/7 support hotline.

The All-Call[®] CCTV System protects residents and staff, while securing facility buildings and grounds from vandalism and unwanted intruders.
